NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

A. Accounting Practices

The financial statements of Fidelity & Guaranty Life Insurance Company (the "Company" or "FGLIC") are presented on the basis of accounting practices prescribed or permitted by the Iowa Department of Commerce, Insurance Division (the "Iowa Insurance Division").

The Iowa Insurance Division recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Iowa Insurance Law. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Iowa.

In 2013, subsequent to its re-domestication to Iowa and pursuant to SSAP No. 72, "Surplus and Quasi-reorganizations", the Iowa Insurance Division granted the Company a permitted statutory accounting practice to reclassify its negative unassigned surplus balance of $805,816,723 to additional paid in capital as of April 6, 2011, the date of acquisition of the Company by HRG Group Inc. ("HRG"), formerly Harbinger Group Inc., which had the effect of setting the Company's statutory unassigned surplus to zero as of this date. The Iowa Insurance Division waived the six-month timeframe contained in SSAP No. 72 in connection with a change in control.

Upon redomestication to Iowa, the Company elected to use the alternative accounting practices prescribed by 191 IAC 97 for indexed annuity products ("FIA Products"). Under these alternative accounting practices prescribed by 191 IAC 97 "Accounting for Certain Derivative Instruments Used to Hedge the Growth in Interest Credited for Indexed Insurance Products and Accounting for the Indexed Insurance Products Reserve", the call option derivative instruments that hedge the growth in interest credited on index products are accounted for at amortized cost with the corresponding amortization recorded as a decrease to net investment income and indexed annuity reserves are calculated based on Standard Valuation Law and Actuarial Guideline XXXV assuming the market value of the call options associated with the current index term is zero regardless of the observable market value for such options. The Company's FIA Products constitute "indexed annuity products" and the derivatives hedging the Company's FIA Products constitute "eligible derivative assets" as defined in 191 IAC 97.3. As such, the Company elected to account for such eligible derivative assets at amortized cost pursuant to 191 IAC 97.4 and to determine indexed annuity product reserve calculations based on Actuarial Guideline XXXV, assuming the market value of the eligible derivative assets associated with the current interest crediting period is zero, and reflect the interest credit in the reserve when realized based on the actual performance of the relevant external index or indices pursuant of 191 IAC 97.5.

If the Company had not elected the adoption of the alternative prescribed accounting practice, statutory surplus would have decreased by $4,550,467 at March 31, 2015 and increased by $4,954,484 at December 31, 2014. Additionally, net income would have increased by $30,193,906 and $49,103,340 at March 31, 2015 and December 31, 2014, respectively. The Company's risk-based capital ("RBC") would not have triggered a regulatory event had it not adopted the alternative prescribed accounting practice described above.

NOTES TO FINANCIAL STATEMENTS

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Iowa Insurance Division is shown below:

NET INCOME (LOSS)	State of Domicile	March 31, 2015	December 31, 2014
(1) FIDELITY & GUARANTY LIFE INSURANCE COMPANY state basis (Page 4, Line 35, Columns 1 & 3)	Iowa	$ (48,189,496)	$ 104,640,036
(2) State Prescribed Practices that increase/decrease NAIC SAP:			
Indexed annuity reserves and related assets 191 IAC 97	Iowa	(30,193,906)	(49,103,340)
(3) State Permitted Practices that increase/decrease NAIC SAP:	Iowa	-	-
(4) NAIC SAP (1 - 2 - 3 = 4)	Iowa	$ (17,995,590)	$ 153,743,376
SURPLUS			
(5) FIDELITY & GUARANTY LIFE INSURANCE COMPANY state basis (Page 3, Line 38, Columns 1 & 2)	Iowa	$ 1,225,886,246	$ 1,211,598,017
(6) State Prescribed Practices that increase/decrease NAIC SAP:			
Indexed annuity reserves and related assets 191 IAC 97	Iowa	4,550,467	(4,954,484)
(7) State Permitted Practices that increase/decrease NAIC SAP:	Iowa	-	-
(8) NAIC SAP (5 - 6 - 7 = 8)	Iowa	$ 1,221,335,779	$ 1,216,552,501

The Company has no other statutory accounting practices that differ from those of NAIC SAP other than 191 IAC 97 and the application of SSAP 72 after the expiration of the six-month timeframe prescribed in SSAP 72.

At March 31, 2015 and December 31, 2014, the Company's investment in affiliated common stock for Raven Re reflects the subsidiary's effect of the Vermont Department permitted accounting practice for Raven Re's letter of credit ("LOC") as an admitted asset for $238,750,000 and $245,000,000, respectively. The LOC was secured by Raven Re to finance the statutory reserves resulting from the Raven Re WSC reinsurance treaty, effective October 2012 entered into with the Company. In accordance with the LOC agreement, the letter of credit decreases $6,250,000 on the first day of each quarter.

C. Accounting Policy

(6) Loan-backed and structured securities are stated at either amortized cost or, for those securities rated NAIC 6, the lower of amortized cost or fair value. Loan-backed and structured securities that are deemed to be other-than-temporarily impaired are written down through the statement of operations to fair value or to the amount of the discounted estimated future cash flows. See Note 5D(5) for the circumstances that result in the recognition of an other-than-temporary impairment loss. The retrospective adjustment method was used to value all securities except for interest only securities or securities where the yield had become negative. These securities were valued using the prospective method.

D. Loan-Backed and Structured Securities

(1) Prepayment assumptions for single class and multi-class mortgage-backed and asset-backed securities were obtained from dealer survey values and are consistent with the current interest rate and economic environment.

NOTES TO FINANCIAL STATEMENTS

(2) During first quarter 2015, the Company recognized other-than temporary impairments related to an intent to sell and/or lack of intent to retain the loan-backed or structured securities as follows:

	(1) Amortized Cost Basis Before Other-than-Temporary Impairment	(2) Other-than-Temporary Impairment Recognized in Loss		(3) Fair Value 1 - (2a+2b)
		(2a) Interest	(2b) Non-interest	
OTTI recognized 1st Quarter - 3.31.15				
a. Intent to sell	$ 46,569	$ (11,610)	$ -	$ 34,959
b. Inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis	$ -	$ -	$ -	$ -
c. Total 1st Quarter	$ 46,569	$ (11,610)	$ -	$ 34,959
		$ (11,610)	$ -	

(3) For the three months ended, March 31, 2015, the Company recognized other-than-temporary impairments ("OTTI") on the following loan-backed and structured securities as the present value of cash flows expected to be collected are less than the amortized cost basis of these securities:

1 CUSIP		2 Book/Adjusted Carrying Value Amortized Cost Before Current Period OTTI	3 Present Value Projected Cash Flows	4 Recognized Other-Than-Temporary Impairment	5 Amortized Cost After Other-Than-Temporary Impairment	6 Fair Value at the Date of OTTI Recognition	7 Financial Statement Reporting Period
05946X	CL 5	$ 475,129	$ 373,681	$ (101,448)	$ 373,681	$ 373,681	3/31/2015
Totals		$ 475,129	$ 373,681	$ (101,448)	$ 373,681	$ 373,681	

(4) The following table presents the unrealized loss aging for the Company's investments in loan-backed and structured securities at March 31, 2015 by length of time the security was in a continuous unrealized loss position.

a) The aggregate amount of unrealized losses:
1. Less than 12 Months $ 17,439,035
2. 12 Months or Longer $ 22,189,313

b) The aggregate related fair value of securities with unrealized losses:
1. Less than 12 Months $ 919,511,624
2. 12 Months or Longer $ 719,450,988

(5) If the fair value of a loan-backed or structured security is less than its amortized cost basis at the balance sheet date, the Company determines whether the following circumstances exist and, if so, recognizes an- other-than-temporary impairment loss:

- If the Company intends to sell the security or does not have the intent and ability to retain the security until its amortized cost is recovered, the security is other-than-temporarily impaired. A realized loss is recognized for the entire difference between the security's amortized cost and its fair value at the balance-sheet date.

- If the Company does not expect to recover the entire amortized cost from the present value of the security's future cash flows, it cannot assert it has the ability to recover the security's amortized cost even though it has no intent to sell and has the intent and ability to retain. The security is therefore other-than-temporarily impaired. A realized loss is recognized for the non-interest-related decline, which is the difference between the security's amortized cost and the present value of cash flows expected to be collected.

A. FHLB (Federal Home Loan Bank) Agreements

(1) The Company is a member of the Federal Home Loan Bank of Atlanta (the "FHLB"). Through its membership, the Company issued funding agreements to the FHLB in exchange for cash advances in 2003, 2004 and 2005, 2011 and 2012. The Company uses these funds in an investment spread strategy, consistent with its other investment spread operations and; therefore, accounts for these funds in accordance with SSAP No. 52, "Deposit-Type Contracts". These are consistent with the Company's other deposit-type contracts. The Company did not use these funds for its general operations. Any funds obtained in the future and used in the Company's general operations would be accounted for in accordance with SSAP No. 15, "Debt and Holding Company Obligations". The Company has determined that the maximum borrowing capacity was $21,977,500 as of March 31, 2015. The Company calculated this amount in accordance with the lendable collateral value under the current FHLB funding agreements, which is the fair value of collateral pledged times the lendable collateral value factors. Note that there is no additional funding unless the Company issues new funding agreements.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

Neither the Company nor FGLBS provide for a defined benefit pension plan or other postretirement benefits to their employees; accordingly the financial statements of the Company do not reflect any provision for such costs for the period ended March 31, 2015.

13. Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

No significant change.

14. Contingencies

F. All other contingencies

The Company is assessed amounts by the state guaranty funds to cover losses to policyholders of insolvent or rehabilitated insurance companies. Those mandatory assessments may be partially recovered through a reduction in future premium taxes in certain states. At March 31, 2015, FGL has accrued $4,413,150 for guaranty fund assessments which is expected to be offset by estimated future premium tax deductions of $4,004,989.

The Company has received inquiries from a number of state regulatory authorities regarding its use of the U.S. Social Security Administration's Death Master File (the "Death Master File") and compliance with state claims practices regulation. Legislation requiring insurance companies to use the Death Master File to identify potential claims has been enacted in a number of states. As a result of these legislative and regulatory developments, in May 2012, the Company undertook an initiative to use the Death Master File and other publicly available databases to identify persons potentially entitled to benefits under life insurance policies, annuities and retained asset accounts. In addition, the Company has received audit and examination notices from several state agencies responsible for escheatment and unclaimed property regulation in those states and in some cases has challenged the audits. The Company established a contingency of $1,650,000 based on its estimates related to the external legal costs and administrative costs of challenging said audits and examinations of which $1,618,700 has been paid through March 31, 2015. Additional costs that cannot be reasonably estimated as of the date of this filing are possible as a result of ongoing regulatory developments and other future requirements related to this matter.

The Company is involved in various pending or threatened legal proceedings, including purported class actions, arising in the ordinary course of business. In some instances, these proceedings include claims for unspecified or substantial punitive damages and similar types of relief in addition to amounts for alleged contractual liability or requests for equitable relief. In the opinion of management and in light of existing insurance and other potential indemnification, reinsurance and established reserves, such litigation is not expected to have a material adverse effect on the Company's financial position, although it is possible that the results of operations and cash flows could be materially affected by an unfavorable outcome in any one period.

Except for the Eddie L. Cressy v. Fidelity Guaranty [sic] Life Insurance Company, et. al. class action Complaint and the complaint filed by Dale R. Ludwick, discussed below, there has been no material updates to our legal proceedings during the period.

On July 5, 2013, a putative class action Complaint was filed in the Superior Court of California, County of Los Angeles (the "Court"), captioned Eddie L. Cressy v. Fidelity Guaranty [sic] Life

Insurance Company, et. al. Case No. BC-514340. The state court Complaint asserts, inter alia, that the Plaintiff and members of the putative class relied on Defendants' advice in purchasing unsuitable equity-indexed insurance policies.

On April 4, 2014, the Plaintiff, the Company and the other two defendants signed a Settlement Agreement, pursuant to which the Company has agreed to pay a total of $5,250,000 to settle the claims of a nationwide class consisting, with certain exclusions, of all persons who own or owned an OM Financial/FGL Insurance indexed universal life insurance policy issued from January 1, 2007 through March 31, 2014, inclusive. As part of the settlement, the Company agreed to certification of the nationwide class for settlement purposes only. An Amended Settlement Agreement was filed with the Court on June 5, 2014.

On January 2, 2015, the Court entered the Final Judgment in Cressy, certifying the class for settlement purposes, and approving the class settlement. The implementation shall commence on or about August 10, 2015. The parties will advise the Courts when settlement is complete.

At March 31, 2015, the Company estimated the total cost for the settlement, legal fees and other costs related to this class action would be $9,172,625 and established a liability for the unpaid portion of the estimate of $3,397,690. The Company has incurred and paid $3,774,935 related to legal fees and other costs and $2,000,000 related to settlement costs as of March 31, 2015. Based on the information currently available, the Company does not expect the actual cost for settlement, legal fees and other related costs to differ materially from the amount accrued. The Company is seeking indemnification from OM Group (UK) Limited ("OMGUK") under the First Amended and Restated Stock Purchase Agreement, dated February 17, 2011 (the "F&G Stock Purchase Agreement") between HFG and OMGUK related to the settlement and the costs and fees in defending the Cressy litigation in both the federal and state courts. The Company has established an amount recoverable from OMGUK for the amount of $4,494,586, the collection of which the Company believes is probable. This recoverable is reported in the statement of admitted assets, liabilities and capital and surplus as a non- admitted asset. The actual amount recovered from OMGUK could be greater or less than the Company's estimate, but the Company anticipates that the amount recovered will not be materially different than its current estimate.

On January 7, 2015, a putative class action complaint was filed in the United States District Court, Western District of Missouri, captioned Dale R. Ludwick, on behalf of Herself and All Others Similarly Situated v. Harbinger Group Inc., Fidelity & Guaranty Life Insurance Company, Raven Reinsurance Company, and Front Street Re (Cayman) Ltd. The complaint asserts claims of violation of the Racketeer Influenced and Corrupt Organizations Act ("RICO") and injunctive and declaratory relief. The complaint seeks unspecified compensatory damages in an amount not presently determinable, treble damages, and injunctive relief, among other forms of relief. The Company believes it has meritorious defenses and intends to vigorously defend the litigation. On April 13, 2015, the Company joined in the filing of a joint motion to dismiss the complaint that was filed by all the defendants. As of March 31, 2015, the Company did not have sufficient information to determine that the Company is exposed to any losses that would be either probable or reasonably estimable beyond an expense contingency estimate of $900,000, which was accrued during the three months ended March 31, 2015. On April 2, 2015, the Court entered a Scheduling Order, which requires the parties to: (i) hold a discovery conference by June 1, 2015; (ii) submit a discovery plan by June 15, 2015, with Plaintiff's counsel taking the lead "in preparing the proposed plan"; (iii) designate a mediator by June 15, 2015 (unless the discovery conference is held earlier, and then the designation is fourteen days after the conference); (iv) hold a mediation within 75 days after June 1, 2015, which would be approximately August 15, 2015. The Court has not set a trial date.

In light of the inherent uncertainties involved in the matter aforementioned, there can be no assurance that the litigation discussed above, or any other pending or future litigation, will not have a material adverse effect on our business, financial condition, or results of operations.

20. Fair Value Measurements

A. The Company's measurement of fair value is based on assumptions used by market participants in pricing the asset or liability, which may include inherent risk, restrictions on the sale or use of an asset or non-performance risk. The Company's estimate of an exchange price is the price in an orderly transaction between market participants to sell the asset or transfer the liability ("exit price") in the principal market, or the most advantageous market in the absence of a principal market, for that asset or liability, as opposed to the price that would be paid to acquire the asset or receive a liability ("entry price").

(1) Fair Value Measurements at March 31, 2015:

(1) Description	(2) (Level 1)	(3) (Level 2)	(4) (Level 3)	(5) Total
Asset at fair value:				
Common stock - unaffiliated	8,296,168	36,639,600	-	44,935,768
Derivative instruments - assets				
Equity options	-	34,541,867	-	34,541,867
Total assets at fair value	$ 8,296,168	$ 71,181,467	$ -	$ 79,477,635
Liabilities at fair value:				
Write-in (Due to Futures Broker)	$ -	$ 893,351	$ -	$ 893,351

(2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

No fair value measurements were determined using significant unobservable inputs (Level 3). Level 3 securities trade in less liquid or illiquid markets with limited or no pricing information. The valuation relies on management's judgment concerning the discount rate used in calculating expected cash flows, credit quality, industry sector performance and expected maturity.

(3) The Company's policy is to recognize transfers in and transfers out of the fair value hierarchy levels as of the beginning of the year of the event or change in circumstances that caused the transfer.

(4) Valuation techniques and inputs used in Fair Value Measurements for Level 2:

Bonds and preferred stocks – The fair value of bonds and preferred stocks is based upon valuations obtained from an independent pricing service. The primary inputs are observable and include benchmark yields, reported trades, broker/dealer quotes, issuer spread, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. The independent pricing service also evaluates new issue data, monthly payment information and collateral performance. The independent pricing service uses spreads and other information solicited from Wall Street buy and sell side sources, including primary and secondary dealers, portfolio managers and research analysts. The primary inputs used by the independent pricing service are observable and, therefore, the investments are classified as Level 2.

Common Stock - Unaffiliated - The Company's investment in unaffiliated common stock that is reported at fair value and classified in Level 2 represents the Company's investment in Federal Home Loan Bank of Atlanta ("FHLB") common stock. Based upon the level of transactions with the FHLB, the Company is required to maintain FHLB stock. The fair value of this stock is set equal to its cost, which represents the price at which the FHLB will repurchase the stock.

NOTES TO FINANCIAL STATEMENTS

Derivative Instruments - The fair value of derivative assets, excluding options that hedge FIA Products which are carried at amortized cost as described in Note 1A, is based upon valuation pricing models and represents what the Company would expect to receive or pay at the balance sheet date if the Company cancelled the options, entered into offsetting positions, or exercised the options. The fair value of futures contracts at the balance sheet date represents the cumulative unsettled variation margin. Fair values for these instruments are determined externally by an independent actuarial firm using market observable inputs, including interest rates, yield curve volatilities, etc. and therefore, the assets are classified as Level 2. Credit risk related to the counterparty is considered when estimating the fair values of these derivatives. However, the Company is largely protected by collateral arrangements with counterparties.

Valuation techniques and inputs used in Fair Value Measurements for Level 3:

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lower level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment.

When a determination is made to classify an asset or liability within Level 3 of the fair value hierarchy, the determination is based upon the significance of the unobservable inputs to the overall fair value measurement. Because certain securities trade in less liquid or illiquid markets with limited or no pricing information, the determination of fair value for these securities is inherently more difficult. However, Level 3 fair value investments may include, in addition to the unobservable or Level 3 inputs, observable components, which are components that are actively quoted or can be validated to market-based sources.

Bonds and preferred stocks: Fair values for bonds and preferred stocks are based on valuations obtained from an independent pricing service or broker quotes. The independent pricing service's valuations are based on market data and utilize pricing models that vary by asset class and incorporate available trade, bid and other market information and, for structured securities, cash flow and loan performance data when available. The primary inputs are observable and include benchmark yields, reported trades, broker/dealer quotes, issuer spread, two-sided markets, benchmark securities, bids, offers and reference data including market research publications. The independent pricing service also evaluates new issue data, monthly payment information and collateral performance. The independent pricing service uses spreads and other information solicited from Wall Street buy and sell side sources, including primary and secondary dealers, portfolio managers and research analysts. The Company uses the valuations provided by the independent pricing service as the estimated fair value of the security when available. If the independent pricing service is not able to provide a valuation, the Company obtains a broker quote and uses the broker quote as an estimate of fair value.

Common stocks - unaffiliated: The Company's investment in unaffiliated common stocks is comprised of FHLB common stock and mutual funds. Based upon the level of transactions with

the FHLB, the Company is required to maintain FHLB stock. The fair value of the FHLB common stock is set equal to its cost, which represents the price at which the FHLB will repurchase the stock. The mutual funds in which the Company invests are actively-traded institutional and retail mutual fund investments. The fair value for the mutual fund investments is based on the values provided by the respective mutual fund companies and represents the value the Company would have received if it withdrew its investment on the balance sheet date.

Mortgage loans and policy loans: Fair values for policy loans are estimated using discounted cash flow analysis, using interest rates currently being offered for loans with similar credit risk. Loans with similar characteristics are aggregated for purposes of the calculations. The carrying value for mortgage loans approximates the fair value.

Derivative instruments: The fair value of options is based upon valuation pricing models and represents what the Company would expect to receive or pay at the balance sheet date if the Company cancelled the options, entered into offsetting positions, or exercised the options. The fair value of futures contracts at the balance sheet date represents the cumulative unsettled variation margin (open trade equity net of cash settlements). Fair values for these instruments are determined externally by an independent actuarial firm using market observable inputs, including interest rates, yield curve volatilities and other factors.

Surplus debentures: The fair values of surplus debentures are based on valuations obtained from independent pricing services or broker quotes.

Other Invested Assets – This caption primarily includes affiliated subordinated notes and affiliated preferred equity interests. The fair value of affiliated subordinated notes is based on valuations obtained from independent pricing services. The fair value of affiliated preferred equity interests is based on a market approach, which utilizes prices and other relevant information generated by market transactions involving identical or comparable securities. The significant unobservable input used in the market approach for the affiliated preferred equity interests is yields for comparable securities.

Separate account invested assets: FHLB separate account invested assets are comprised of bonds and short-term investments. The fair value of the bonds held in the FHLB separate account are based on valuations obtained from an independent pricing service or broker quotes using the same methods and inputs described above for “bonds and preferred stocks”.

Other assets and other liabilities: Other assets and liabilities considered financial instruments are generally of a short-term nature, and it is assumed the carrying value approximates fair value.

Deposit-type contracts: Fair values for the Company's liabilities under deposit-type contracts are estimated using discounted cash flow calculations based on interest rates currently being offered for like contracts with similar maturities.
